CHANGES/ CLARIFICATIONS LIMITED SUPERSTOCK RULES 2019

- For the ProStock class the ETPC members voted last april that 2 and 4 valve engines can have the same displacement. We change that for the Limited SuperStocks too. So we remove the 427 cui (7000 cm³) limit and the number of valves in the rulebook.
- Tyres for Limited Super: same as ProStocks, Maximum rim size 38 inches. Maximum tire size with 38"rim: 580/70R38 (20.8-38), with 34"rim 620175R34 (23.1-34) and with 32"rim: 650/75R32 (24.5-32).
- Restrictors: the max length of the restrictor is 100 mm. **Max length from the compressor wheel blade to the restrictor 50 mm.**
Reason for this is we do not want a restrictor with on both sides a special venturi, this can create more flow.

On behalf of the ETPC Tech & safety Board

Willem Wempe
